Master's Degree in Educational Leadership

Qualification: Master of Business Administration

Extent and duration: 90 ECTS, 1.5–2.5 years

Tampere University of Applied Sciences

Sciences (TAMK) is one of the largest and most popular higher education institutions in Finland. The degree programmes offered are focused on hands-on practice and rewarding learning experiences. At TAMK you will also benefit from the opportunity to study in a diverse and multidisciplinary environment.

The world of work needs professionals who are internationally networked and have acquired practical tools and understanding of relevant theories. At TAMK you will have an opportunity to create your own career path and update your skillset.

From the beginning of 2019, Tampere University of Applied Sciences and Tampere University will form a new multidisciplinary community in higher education with competitive edges in technology, health and society.

The content of the programme covers topics such as:

- learning theories
- education policies and practices
- leadership practices
- financial management
- communication and conflict management.

You will learn the essentials of leading people and businesses, and the impact of new educational technology will also be examined. As your studies progress, you will plan and learn the basics of academic research (Master's thesis).

This degree will provide you with the knowledge and skills to work in schools, colleges, universities, governmental organisations, ministries of education and NGOs.

A Master's degree certificate issued by TAMK is generally valid for applying for doctoral studies at other universities, however please refer to the admission policy of the institution in question for further information.
